

Background of participants

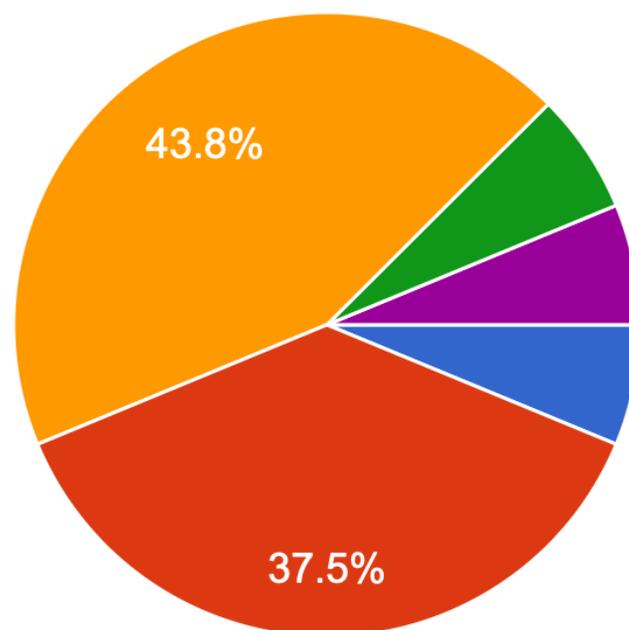

- Your answers (anonymised, aggregated)

IR0000032 – ITINERIS, Italian Integrated Environmental Research Infrastructures System
(D.D. n. 130/2022 - CUP B53C22002150006) Funded by EU - Next Generation EU PNRR-
Mission 4 “Education and Research” - Component 2: “From research to business” - Investment
3.1: “Fund for the realisation of an integrated system of research and innovation infrastructures”

Do you have experience with Digital Objects concepts, FAIR principles and Scientific Data Repositories?

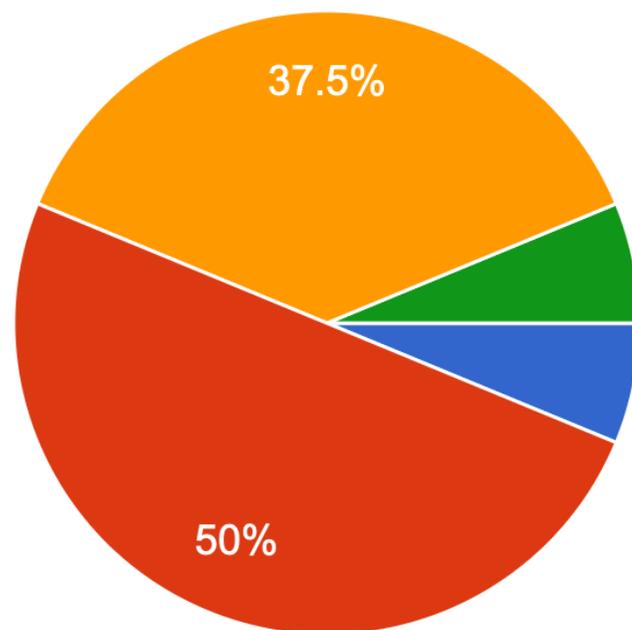

16 responses

- high
- medium
- low
- I've no experience
- I have some experience with Digital Objects concepts but no experience with FAIR principles or Scientific Data Repositories.

Do you have experience with Open Science practices?

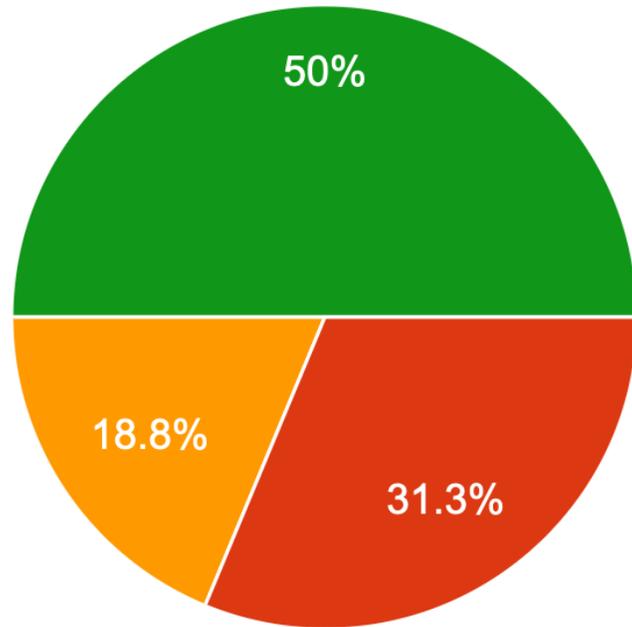

16 responses

- high - It is my research line
- medium - I have experience with Open Science practices
- low - I read about Open Science practices but never used
- I've no experience with Open Science practices

Do you have experience with Virtual Research Environment (VRE)?

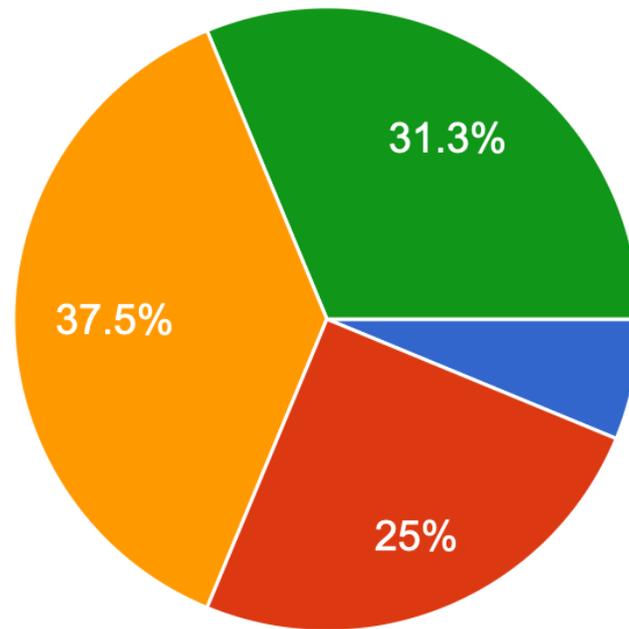

16 responses

- high - It is my research line
- medium - I already used Virtual Research Environment
- low - I read about Virtual Research Environment but never used
- I've no experience with Virtual Research Environment

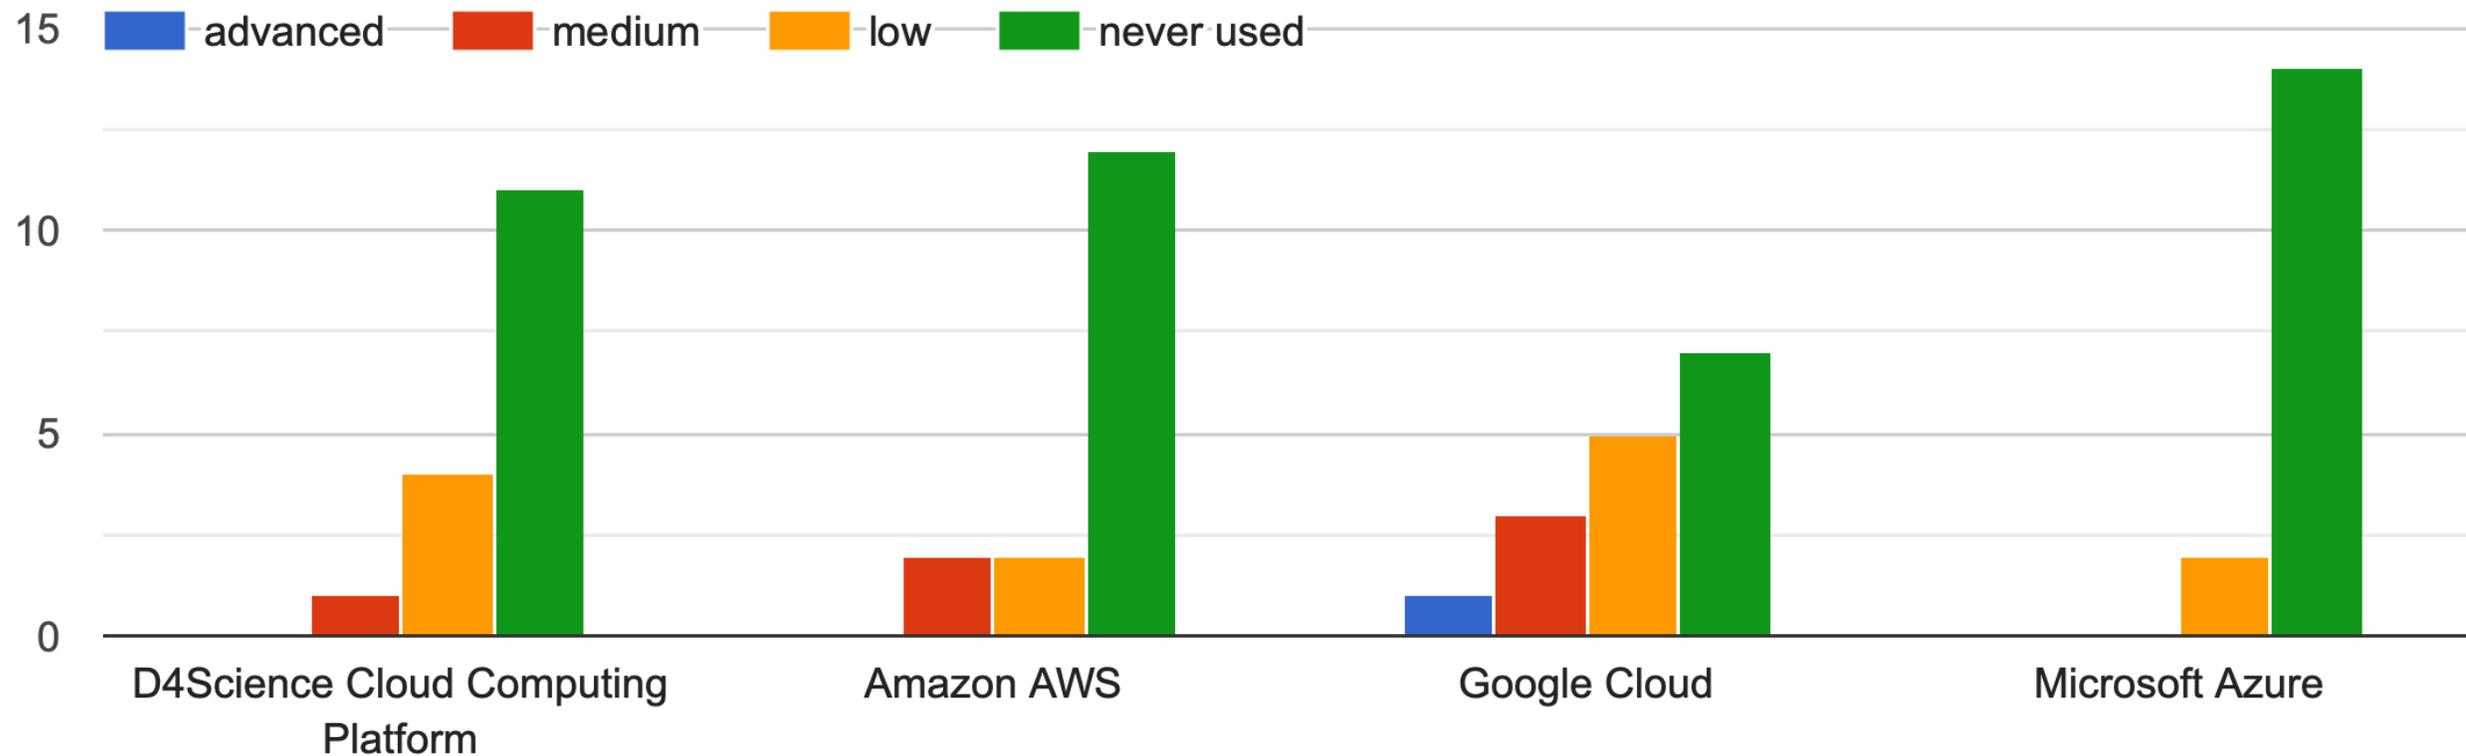

Do you have experience with Cloud Computing Platforms?

16 responses

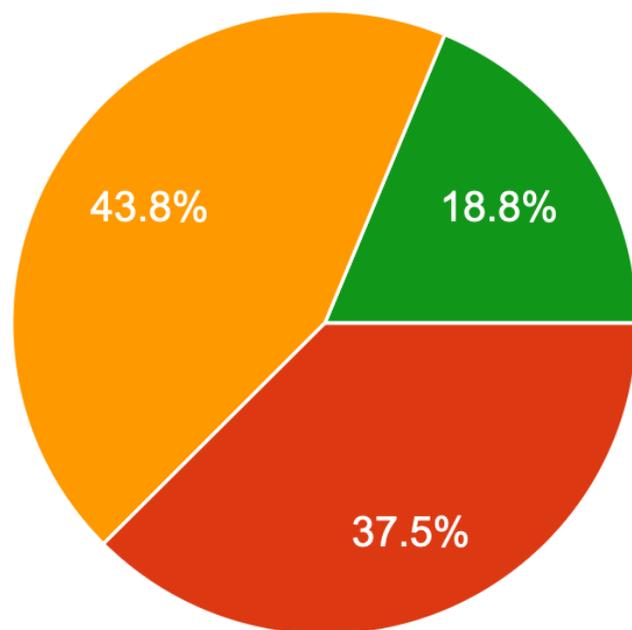

- high - It is my research line
- medium - I used Cloud Computing Platforms in some projects
- low - I have basic knowledge about Cloud Computing
- I've no experience with Cloud Computing

Which of the following Cloud Computing platforms did you use (if any)?

Which is your software programming level?

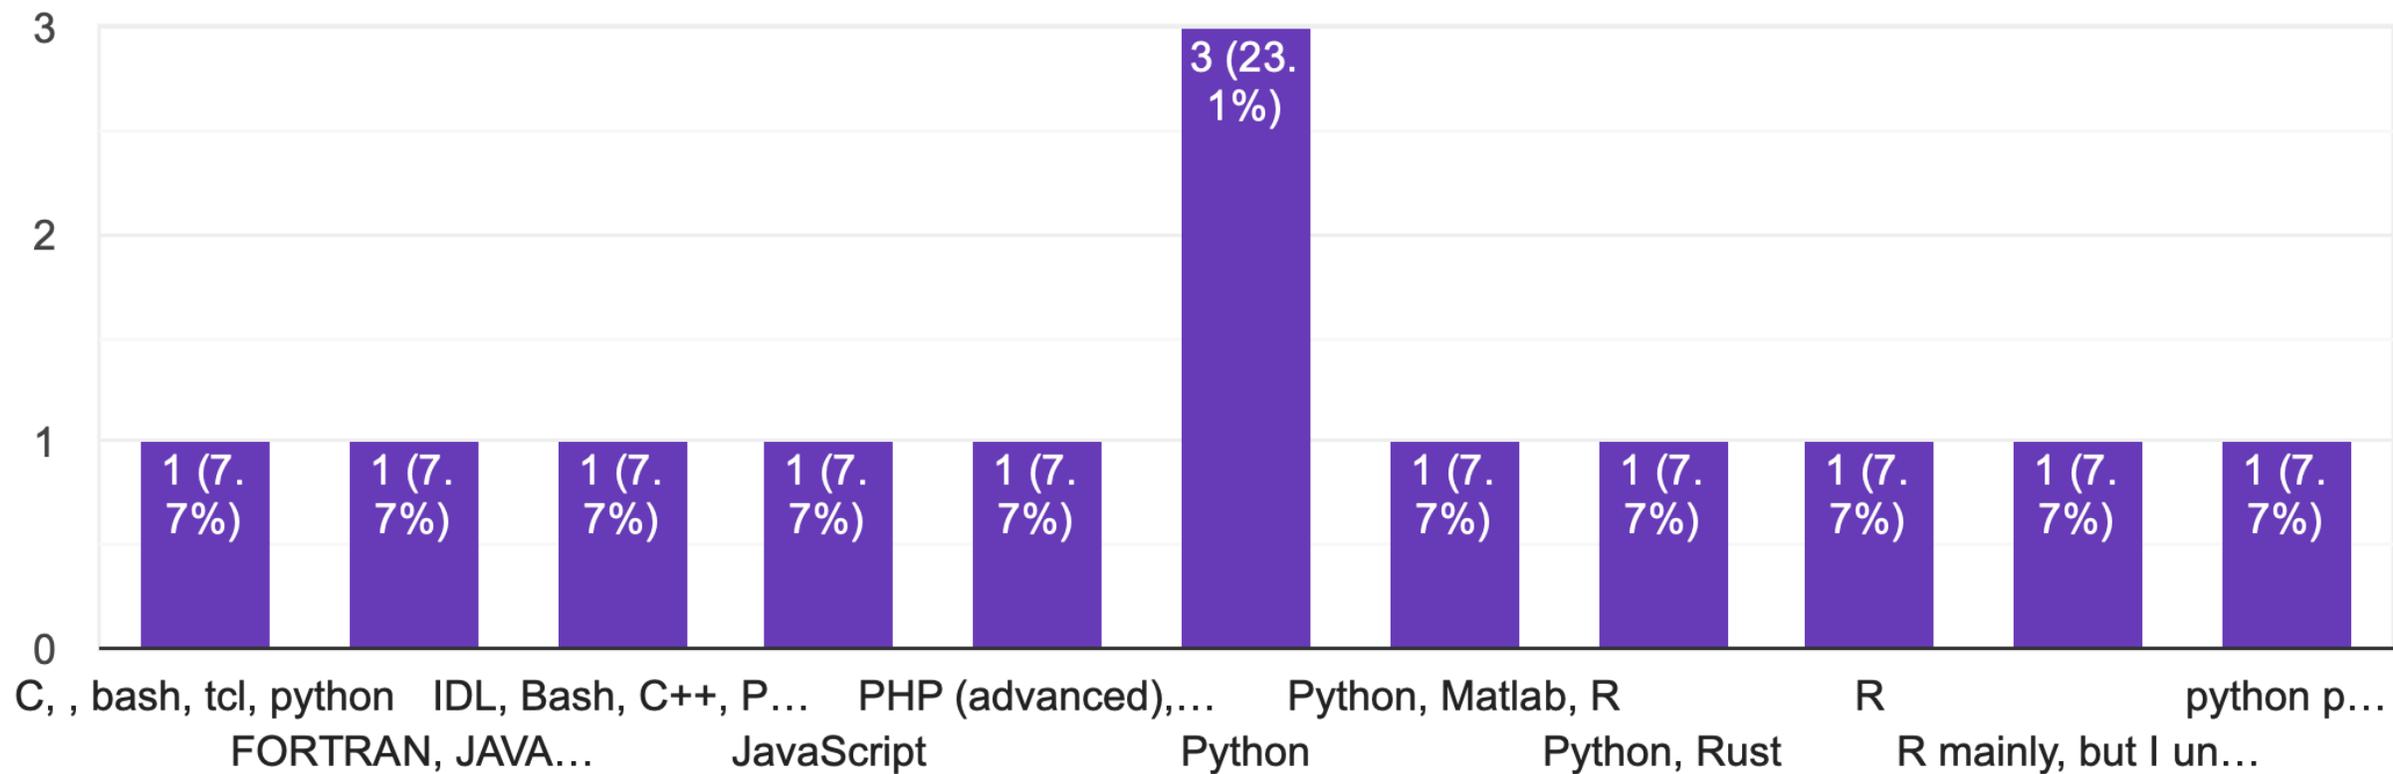

16 responses

- I'm a ninja programmer!
- I've advanced experience in software programming
- I've basic knowledge about software programming
- I've NO experience about software programming

Which kind of programming languages do you know?

13 responses

THANKS!
